There are over a million
orphaned children
in China

Hope and Healing for
Orphaned Children

YOU can truly make a
difference in their lives!

LOVE
WITHOUT BOUNDARIES

There are over a million orphaned children in China waiting for someone to believe in them. Only two percent of these children will ever receive families of their own. Those born with special needs face an even more uncertain future.

Love Without Boundaries Foundation was formed in 2003 to provide the most loving and compassionate care possible to bring hope and healing to these children. Love Without Boundaries has many comprehensive programs in China providing orphaned and impoverished children the opportunity to reach their full potential. Your support will allow even more children to have a second chance and to know that they truly matter to this world.

Medical

Love Without Boundaries helps heal children both by arranging life-saving surgeries and other operations in Chinese hospitals and by sending surgery teams to China. We have a waiting list of children requiring immediate surgery. Your gift to our medical program ensures that the children we meet will receive the treatment needed. Your donation truly can provide healing and even save a life.

Foster Care

We believe that every child deserves a family. The purpose of Love Without Boundaries' foster care program is to remove children from an institutional setting to allow them to develop their full potential in the loving care of a foster family. Your gift will give a child the chance to know the wonderful feeling of having his or her very own mom and dad and being part of a family.

Orphanage Assistance

We often hear about children who need extra nutrition or special services. Your donation to our orphanage assistance program allows us to support these children with basic necessities such

as formula, safe cribs, warm clothing, and incubators. Your support also provides funding for additional caregivers and medical staff for orphanages in need.

Healing Homes

Our healing homes provide a safe, warm, nurturing environment for the most vulnerable babies with

medical needs. Our cleft healing homes help the weakest children born with cleft lip and palate in a home-like setting so they can grow strong enough for surgery. Our Heartbridge Pediatric Healing Unit cares for medically fragile babies before and after surgery with a much higher level of care than would be possible in an orphanage.

Education

Love Without Boundaries sponsors education programs for children in kindergarten through college. Your monthly or one-time donation will

provide educational opportunities for children who would not otherwise have them. We asked one 12-year-old girl what she would want if she could have anything in the world. She quietly answered, "I wish I could read." Your gift will enable these children to have the brightest future possible.
